

LIBERTY LOAN CLOSING TODAY

Seems Certain At Least 2,500,000 Will Subscribe

SUCCESSFUL FINISH

Loan a Popular One, Greater Number of Takers Being \$50 to \$100; Last Minute Deluge

Washington, D. C. June 14.—The Liberty loan campaign entered the home stretch today with every indication that the tremendous thirtieth day drive throughout the nation would result in going well beyond the \$2,000,000,000 goal.

From coast to coast the story that poured into the treasury all day was the same—a story of a whirlwind finish. Telegrams told of tolling bells and shrieking whistles across the continent marking the last day of the campaign of redoubled efforts of the many agents at work for the loan's success and of long waiting lines of subscribers in thousands of banks in every state of the union.

The last 24 hours work is going to show big in the final count according to these reports. The forenoon tomorrow officials hope every man in the country who can subscribe will have done so. At the closing hour tonight there was no telling where the total may lead.

It seems certain however that at least 2,500,000 persons will have subscribed before the books have closed at noon tomorrow. Measuring the total by the number of Liberty loan buttons which have gone out from headquarters the number of subscribers would exceed 3,000,000.

Not Enough Buttons

More than four million buttons will have been distributed before the three chief button factories of the country catch up with their orders three days hence. New York has taken 1,200,000 buttons and estimates are that it will furnish 1,000,000 subscribers.

Late campaign figures made public today by Secretary McAdoo showed an apparent shortage of \$1,700,000,000, the total reported being \$1,843,000,000. These reports were received after noon at the treasury. They showed an increase of nearly \$200,000,000 in subscriptions over the previous day's report.

The loan according to reports received by treasury officials is in every sense a popular one. By far the greatest issue will be of the \$50 and \$100 bonds. For them there has been an extremely heavy demand in every industrial section of the country and in many rural communities. The city of Washington will probably marshal 30,000 individual subscribers most of them for the \$50 and \$100 bonds.

Last Minute People

Many thousands of banks and trust companies are yet to be heard from with their subscriptions for themselves and their customers. This item alone it is thought will swell the total by many millions. As a rule the banks have been inclined to hold back their subscriptions until the last minute of report only a portion of them. The amount subscribed for today, \$1,843,000,000 represents actual subscriptions in the Federal Reserve banks accompanied by the required two percent of the amount of subscription. Officials believe that the Reserve banks will be deluged tomorrow by a flood of last minute subscriptions.

There is yet time however, for the man or woman who wants a small bond to get it officials said today for the small investor is to be favored above all others and every application for a small bond is to be granted. In the case of over subscription this will result in raising the larger subscriptions. Indications are that there will be a flood of subscriptions for the \$100 bonds tomorrow up to the closing hour.

Throughout the country the banks are keeping open until late tonight to accommodate to the last minute the subscribers. The treasury department has granted the banks permission in extreme cases to borrow the amount of their subscriptions to their Reserve banks and to return the two percent of the total at the same time but all subscriptions to be counted must reach Reserve banks not later than noon.

New York, June 14.—The New York Federal Reserve district had a total of \$900,000,000 worth of Liberty loan bonds at the close of business tonight. It was estimated that the total would be \$1,000,000,000 by the close of tomorrow's business.

An army of tabulators toiled last night at the headquarters of the committee making feverish efforts to compile the staggering total of subscriptions. Piles of workers' check books. The total represented a sum greater than even masters of finance could comprehend. A one long table was heaped with hundreds of banks' checks throughout the district. From these checkbooks were poured a varicolored stream of checks. The checks were passed from hand to hand along the line for checking and rechecking and back to the bank.

DRAFT '93 OF ESTIMATE

Washington, D. C. June 14.—With returns from six states missing the war registration total tonight stood at 8,919,562 or 93.4 percent of the census estimate of 9,552,441 eligibles in the 41 states reported and the District of Columbia.

If the average is maintained the registration will show 9,558,000 men enrolled for war service.

Based on the original census estimate of 10,078,000 which did not include extra supplies of cards sent to industrial centers more than 95 percent will have registered and the deficiency of 439,544 will be below the estimated number of men of registration age now in the military or naval service not required to register.

The complete returns at the provost marshal general's office are divided: White 6,112,456 colored 925,004 aliens 1,095,336 alien enemies 108,761 indicate possible exemptions 4,110,180.

RUSSIANS REVOLTED AGAINST WHOLE WAR

COUNCIL REPLIES TO ALLIES; BLAMES IMPERIALISM

Petrograd, Russia, June 14.—The executive committee of the workmen and soldiers' council in a statement replying to a joint letter addressed to it by Albert Thomas, the French minister of munitions, Arthur Henderson, British minister without portfolio and Emile Vandervelde, Belgian minister of munitions, expressing surprise that a call had been issued by the council for an international conference to consider peace explained its position regarding the impending international socialistic conference.

The Russian revolution, says the statement, which is a revolt of the people not only against the tyranny of capitalism but also the horrors of the whole war, the blame for which falls upon the international imperialists has placed before all countries with extraordinary acuteness the urgent need of concluding peace.

At the same time the Russian revolution has indicated to the nations a way for realizing this problem, notably a union of all the working classes to combat all attempts of imperialism to prolong the war in the interest of the wealthy class and to prevent peace without annexations or indemnities.

The working classes of all countries can easily come to an easy solid agreement only if they are inspired with their own interest and remove the aspirations of the imperialists and the militarists. It is evident that the conference becomes the turning point in the terrible epoch of fratricidal war only if the members of the conference are imbued with these ideas and it is no less evident than all the questions you have raised for the subject of the continuation of the war.

MISSION TO AID RUSSIA DEFEAT COMMON ENEMY

TO DEVISE MEANS TO OVERTHROW GERMANY AND HER IDEAS

Petrograd, Russia, June 14, via London, England.—David R. Francis, the American ambassador, issued to the press today a lengthy statement explaining the aims of the American mission headed by Elihu Root which arrived in Petrograd yesterday. The statement is thus summarized by the official news agency.

The communication states that the functions of the mission are to devise in accord with the Russian government effective means to aid Russia in her efforts to defeat the universal enemy of democracy, Germany, and the German standpoint are the greatest foes of the democratic ideas now cherished by America and Russia in common. The mission will elucidate to Russia the aims followed by America making it clear that America is inspired by idealistic motives also that she is devoting to the struggle all her material resources, the indications of which are that the American fleet is now operating with the allies fleet. America will try to reduce the burdens and privations borne by the Russian people.

Among the members of the mission is not one person who pursues any personal financial or commercial aim or who desires to influence Russian internal affairs.

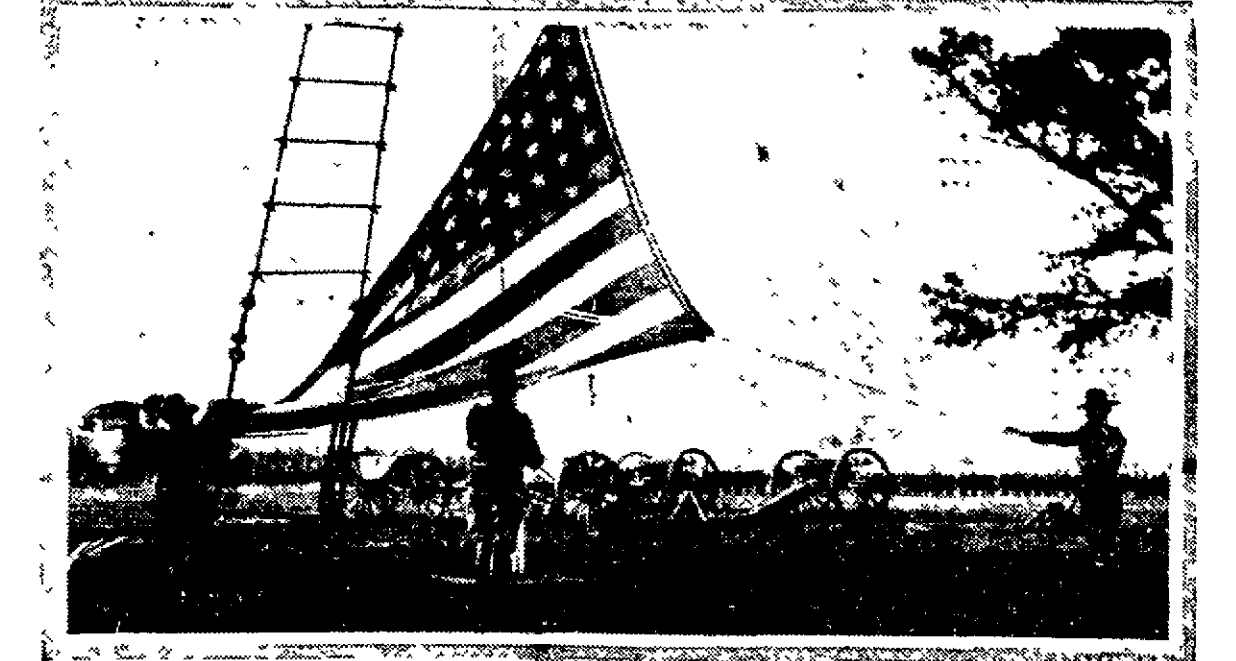

HIGH COST OF LIVING BONDS

Rochester, June 14.—Trustees of the University of Rochester today announced that a bonus of \$70 for each unmarried man and \$35 for each married man and \$35 for each child would be paid to members of the faculty to meet high prices due to war conditions.

NORTHCLEIFF IN WASHINGTON

Washington, D. C. June 14.—Lord Northcliffe, editor of the London Times and prominent head of the British war mission in America, arrived in Washington tonight. He returned immediately to his room at a hotel declining to see press representatives. It is believed he will call at the White House tomorrow.

THE MOST IMPRESSIVE CEREMONY IN THE ARMY

RETREAT AT PLATTSBURG

The above photograph shows the military ceremony of Retreat at Plattsburg. This is the final salute to Old Glory given at the close of every day. To the national strains of the Star-Spangled Banner every soldier stands at attention until the final notes of the anthem proclaim that the post colors have been lowered. This ceremony takes place every night at every army post camp and station in the United States and its possessions.

EXPLOSION IN MUNITIONS PLANT

English Factory Blows Up, Killing Many Children

104 KILLED IN RAID

Casualties in Wednesday's Excursion Great; One Plane Brought Down Near Artillery Barracks

London, England, June 14.—A large number of persons were killed or wounded in an explosion of a munitions factory at Ashton-Under-Lyne Wednesday besides widespread damage was done in the neighborhood.

A regrettable feature of the explosion was that a considerable number of the victims were children who were on their way home from school at the time and were killed or wounded by fragments of debris of all kinds hurled in every direction.

The streets around the scene of the explosion were like a shambles. The flames communicated to a nearby cotton mill, which was burned while across the river in Dunkinfield another cotton mill was destroyed. The entire region in which the explosion occurred is dotted with cotton mills and in them scarcely a single window remained unbroken.

London, England, June 14.—Sir George Cave, home secretary, announced in the house of commons this evening that the latest reports of the casualties for Wednesday's air raid showed that 104 persons had been killed and 141 seriously and 269 slightly injured. Altogether he said 120 children were killed or injured. In the house of commons James I. McPherson, parliamentary secretary for the war office said that the air raiders crossed the channel in 12 minutes Wednesday. He said he understood it to be true that one of them was brought down near Shobdon, near which is the practicing ground for heavy ordnance and where there is an extensive artillery barracks.

Lord Derby said today that not a single soldier had been killed or wounded in Wednesday's air raid which had been simply a killing or wounding of civilians. From the German military viewpoint it had no absolutely no value whatever.

CANTONMENT SITES APPROVED

List of sixteen Now Completed for Construction to Commence

Washington, D. C. June 14.—Four sites for war army division cantonments were approved today completing the list of 16 points at which military towns are to be built up by September 1 when the first draft troops will be called to the colors.

At each cantonment a full division will be given its preliminary training before being sent to Europe for final instructions behind the fighting line. They will be located as follows: Ayre, Miss. Vantage, N. Y.; Wrightstown, N. J.; Annapolis, Ga.; Union Mt. Petersburg, Va.; Atlanta, Ga.; Columbia, S. C.; Chillicothe, Ohio; Louisville, Ky.; Battle Creek, Mich.; Little Rock, Ark.; Rockford, Ill.; Des Moines, Iowa; Fort Riley, Kan.; Fort Sam Houston, Texas; American Lake, Washington.

In addition to these the following six of the 16 camp sites for divisions of the National Guard have been announced.

Fort Worth, Texas; Waco, Texas; Houston, Texas; Fort Sill, Oklahoma; Deming, N. M.; Linda Vista, Cal. It is probable that a seventh National Guard camp will be established in connection with the new cantonments at American Lake, Washington, but the war department has not said the final word on this part as yet. A start has been made on the enormous construction task.

DISCHARGED FOR ENLISTING

Bank Clerk Appeal to Governor in Affidavits

Albany, June 14.—Attorney General Merton E. Lewis tonight called upon District Attorney Dennis O'Leary of Queens county to investigate complaints made to Governor Whitman by Edgar W. Lowery and Guy Hillmann that they were discharged from the Queens County Savings bank because of their enlistment in the National Guard. Lowery and Hillmann, who reside at Flushing, accuse A. C. Hagaman, the cashier of dismissing them.

Accompanying their affidavits which allege discrimination is a petition signed by a large number of the depositors of the bank which employed them in clerical capacities demanding a thorough inquiry.

HEAVY TAX WOULD STOP LIQUOR DISTILLING

RATE IS \$60 HUNDRED POUNDS; SAVES FOODSTUFFS

Washington, D. C. June 14.—A prohibitory tax of food stuffs used in making beverages tentatively agreed to last week by the senate finance committee was still further increased today and then was formally written in the war tax bill. The new rate is \$60 per hundred pounds instead of \$20 per bushel and representatives of the distillers declare it unquestionably would be effective in forcing suspension of the distilling industry. The section as approved also prohibits importation of distillers' beverages.

Other liquor tax increases were approved by the committee today. The manufacturers' tax of 5 per cent on alcoholic goods, patent medicines, perfumery and cosmetics was reduced to two per cent and a substitute tax on scripps sales of tickets was adopted making the rate from 10 to 50 per cent instead of 50 per cent flat. Tomorrow the troublesome income excess profits and publishers' taxes will be taken up.

SOLDIERS GLAD OF PERSHING'S ARRIVAL

GENERAL WILL BE MEMBER OF ALLIED COUNCILS

British headquarters in France, June 14, via London, England.—The news of the arrival of Major General John J. Pershing the American commander in France spread through the British army today and was received with the utmost satisfaction.

General Pershing will be a valued member of the allied war councils in the future and will have the opportunity to study and witness the various offensive actions before his troops arrive.

Before his arrival in France the general had the opportunity to see the British transport system in operation and was greatly impressed by it. Later he intends to go more thoroughly into the study of the methods of supplying the base positions.

THOUSANDS IN ATHLETIC GAMES

New York, June 14.—Thirty thousand entry blanks were sent out today for a gigantic athletic carnival to be held as the chief feature of the Fourth of July celebration in the city. Blanks were sent to all athletic clubs, Y. M. C. A. branches, public schools, playgrounds, recreation centers and parochial schools. It is expected there will be more than 10,000 entries. President Wilson has been made honorary president of the games.

BRITISH TAKE FORT ON RED SEA

Warships Bombard Turkish Port Three Hours

STRATEGIC MOVE

Believed Purpose is to Remove Turkish Force Near Aden That Hinders Allied Advance

London, England, June 14.—Fort Salih on the east shore of the Red Sea has been captured by British warships. It was officially announced this evening.

The announcement says: The commander in chief in the East Indies reports that Tuesday morning his majesty's ships under his command captured the fort at Salih after a resistance of three hours.

The fort is situated on the eastern shore of the Red Sea, in the command Kanaran and is 180 miles north of Perin between Lohelva and Hodeida. Ninety four prisoners, three machine guns and two mountain guns and military stores, camels and the harbor plant were captured. One Britisher was killed.

Fort Salih is on the Kanaran bay in Yemen province southwestern Arabia. Large rock salt works are located there.

The captured fort has about 175 miles north of the Gulf of Aden. A force of Turks to the north of Aden has been long in the way of the British in attempts they have made to advance from that city. The purpose of the seizure of Fort Salih may be in facilitation of a movement to work in behind this force and capture or disperse it.

FLAYS GERMAN LANGUAGE PRESS

Roosevelt Says They Are Fit Subject for Censor

Lincoln, Neb. June 11.—With all the vigor at his command Colonel Theodore Roosevelt addressing several thousand persons assembled in the capital ground this afternoon strove to drive home the fundamental truth of the doctrine of Americanism. His speech was tempered with kindly consideration of those of foreign blood in the United States but he was emphatic in pointing out the duty of every American at the present time. He flayed the German language newspapers of the country.

These newspapers printed in German are a fit subject for the censor, he said.

BANKERS TO AID RED CROSS

New York, June 14.—Co-operation of prominent bankers of all American cities where there are stock exchanges or associations of stock exchange members is solicited on behalf of the Red Cross \$100,000,000 fund. An appeal went to all members of the association of the stock exchange today by the president John I. Prentiss.

Many houses are expected to donate all or part of the money received by them in the ordinary course of business during Red Cross week beginning next Monday. Other houses will make straight contributions.

The appeal says that while it is expected wide publicity will be given houses which donate the amount will not be made public.

EXPELS ANTI-DRAFT MAN

New York, June 14.—Leon Samson, an anti-conscriptionist follower of Emma Goldman, the anarchist, was expelled today from Columbia university for his alleged activities against the government. It is asserted he took part in organizing a recent meeting of protest against the draft. Samson was formerly a student of the college of the city of New York from which he was suspended for having attacked Mayor General Leonard Wood.

IN EXTREME APATHY

Buffalo, June 14.—The state conference of Mayors and other city officials closed its annual session here today with a meeting addressed by Governor Charles S. Whitman. The governor declared that the people of the United States have not awakened to the bitter necessities of the present situation. It has been the effort of the administration, he said, to guard against excitement in order that the purity of our purpose may not be mingled with hatred.

He said that in avoiding the extreme of hysteria we have fallen back into the extreme of apathy. State Comptroller Eugene M. Travis urged upon the conference the need of a uniform bond system for the cities of the state and said that the power should be vested in the state comptroller to pass upon the validity of the bond.

BRITISH CONTINUE TO GAIN NEAR MESSINES

CAPTURE IMPORTANT POINTS AND MENACE GERMANS

The British troops in the region of Messines are continuing to make gains here and there against the Germans who apparently are unwilling to give battle. Both east and south of Messines advances of Field Marshal Haig's forces and the capture of important first-line positions are reported. The new advances near Gaspad which lies directly east of Messines and between the river Lys and St. Yves and the east of Ploegvast wood form a direct menace from both the north and the south to the important town of Warneton and the road leading eastward to "ard Comines."

The artillery duels between the Belgians and the French and the Germans on various sectors in Belgium particularly near Steen Staete, Liveine and Boesinghe continue unabated and doubtless these regions soon will be the scene of important engagements. From Soissons eastward there is still no activity by the infantry of the French and the Germans but the guns of both are keeping up intermittent bombardments.

Along the front in Russia quietude prevails except for occasional reconnoissances by the Austrians which generally meet with hard usage at the hands of the Russians. In the Caucasus region the Turks have delivered strong attacks against the Russians but all of them were repulsed.

Meanwhile on the fighting front along the Greek Serbian frontier considerable fighting is taking place but without any important result having been achieved although the French war office reports the repulse by the Italians and the British of Teutonic attacks.

The Austrians on the Carso plateau and northeast of Gorizia in the Austro Italian zone have delivered attacks against the Italians occupying positions they recently captured. All the attacks however were in vain owing to the accuracy of the fire of the Italians. Likewise in the Trentino sector a heavy offensive by the Austrians was put down by the Italians the enemy being driven back in disorder and with heavy losses. Another German Zeppelin has been destroyed by the British while flying over the North sea.

MUST STOP SELLING NEWS

Publisher Supplied Customers With New Taken From Dodge Reports

New York, June 14.—United States Judge Augustus V. Hand has granted a preliminary injunction against Allen B. Beale of the corporation of that name publishers of the Dow buildings reports restraining him and his associates from supplying customers with news obtained from the Dodge reports. The S. W. Dodge company complained to the court that the defendants were wrongly appropriating the information furnished to the subscribers of the Dodge reports. Judge Hand in his opinion says: This is a motion to restrain unfair competition. The complainant is engaged in the business of obtaining enterprises and engineering enterprises and furnished it to customers under pledge of secrecy. The defendant Brown is a subscriber to complainant's news of information. The affidavits show that the defendant Pressman has furnished information obtained by the complainant to the defendant Beale.

MORE RED CROSS DIVIDENDS

New York, June 14.—Two more Red Cross dividends were declared here today making a total of \$5,095,000 set aside by 31 companies within the past few days to aid in the campaign to raise \$100,000,000.

The Kennecott Copper corporation today voted a dividend of \$500,000 and the Torrington company of Connecticut and Massachusetts, one of \$25,000. Announcement was made that William B. Thompson, a director of the Federal Reserve bank, will subscribe \$250,000 to the war fund.

WILSON STATES WHY WE FIGHT

Explains Reason For Sending Our Youths Across the Sea

FOR RIGHTS AND HONOR

In Flag Day Speech Recalls History Leading Up to Declaration of War; Sounds Warning

Washington, D. C. June 14.—America's reasons for sending her flag against the fire of the enemy across the sea and the purpose she seeks to serve was stated anew by President Wilson today in a flag day address beneath the Washington monument.

Germany's military masses denied the United States the right to be neutral, the president said, and by extraordinary insults and aggressions left us no self respecting choice but to take up arms in defense of our rights as a free people and of our honor as a sovereign government. He recalled how the imperial government had forbidden Americans the use of the high seas and time, and again executed its threats to send them to their death. How it filled this unsuspecting country with spies and conspirators and sought to arrest commerce and finally how the Berlin foreign officer tried to incite Mexico and Japan into a hostile alliance. "What great nation," he said, "in such circumstances would not have taken up arms."

Now that America has been forced to war declared the president, she bids her young men go forth to fight on fields of blood far away for the same old heroic purpose for which it has seen its men die. A sinister power he said which has the German people themselves in its grip, now at last has stretched forth its ugly talons and drawn blood from us.

The whole world is at war," he added, because the whole world is in the grip of that power and is trying out the great battle which shall determine whether it is to be brought under its master's. In giving warning that the Germans actually have carried into execution their plan to throw a broad belt of military power across the center of Europe and into the heart of Asia rejecting the idea of solidarity of races and the choices of people Mr. Wilson spoke of the "new intrigue for peace" now appearing in many guises at the behest of the Berlin government.

It cannot go further, it dare not go back, he said. It wished to close its bargain before it is too late and it has little left to offer for the pound of flesh it will demand.

Several hours before the President spoke Washington had been drenched with rain and pelted with hail. All through the speech rain came down softly and a secret service man held an umbrella over the President. In spite of the unfavorable conditions the crowd was large.

Secretary Lansing introduced the President and most of the members of the cabinet were present.

FAILURE TO FILE AFFIDAVIT NOT A BAR

RULED THAT MAN MAY STILL CLAIM EXEMPTION

Albany, June 14.—A decision that failure of a citizen of the state to file affidavits now with the county clerk asking exemption does not constitute a bar to the right to claim exemption when the oath for "rafting in at hand" was recited tonight by Attorney General Merton E. Lewis in a letter to Adjutant General Louis W. Stotesbury. All matters between 18 and 45 years, inclusive, being enrolled on the state militia list and in the book of enrollment care in printed a section of the state military law requiring those who desire to claim exemption to file affidavits to that effect within 15 days after they have been enrolled.

JAPANESE MISSION COMING HERE

To Arrange Co-operation Between Japan and United States

Tokyo, Japan, June 13.—Viscount Kikujiro Ishii formerly foreign minister has been appointed chief envoy of the Japanese commission which is to visit the United States for the purpose of arranging co-operation between the two nations in the war. It is understood the commission will discuss questions relating to prosecution of the war including defense of the Pacific and at the same time endeavor to enhance the friendly relations between the two countries.

MORE SHOCKS IN SAN SALVADOR

San Salvador, Salvador, June 14.—Several earthquake shocks of varying intensity were felt here today and yesterday, but no damage has been reported. The various relief committees are distributing provisions to the destitute and children are being told to keep the thousands of homeless who are camped in the streets. The wounded are being attended by the Red Cross.

What She Wanted.

A woman was knocked down by a horse, but happily escaped with a few scratches.
A man rescued her and said, "Can I get you anything?"
She (much out of breath and gasping with excitement)—Oh—oh—can you kindly get me—
He—Some brandy?
She—No—not drink—some safety pins. I feel I'm falling all to pieces.—Pittsburgh Chronicle.

GIRL SAVES FOUR LIVES.

At Call Over Wire She Sends Doctor to Dying Family.
A telephone operator in the Flushing (N. Y.) exchange received a call from the home of Wallace W. Balch. A man's voice, very weak, gasped: "Give me Joseph Daly. For God's sake hurry. House filled with gas." Daly is a neighbor of Balch. The operator didn't wait to get him. She dashed a call instead to Dr. Robert A. Adams, and two minutes later he was on his way to the Balch home. Dr. Adams found Balch unconscious beside the telephone and in the kitchen Mrs. Balch and her two sons, Frank and Wilbur, on the floor, also unconscious. The house was filled with a curious odor, which seemed to come from the gas stove. The physician raised the windows, gave the family first aid and phoned Flushing hospital for an ambulance. The family were hurried to the hospital, where they finally regained consciousness. It developed that imperfect combustion in the range while Mrs. Balch was getting dinner had generated a mixture more deadly than illuminating gas. All would have been dead had help been delayed a few minutes more, the doctors said.

Agates.

The English agate derives its name from the river Achates, on the banks of which, according to Pliny, it was first found. But as agates are met with in many countries, this stone, which is of the quartz family, was doubtless from the earliest times known to the nations of the orient.

SAYS EVERYBODY HAD A GOOD WORD FOR NEW TANLAC

Jonson City Man Tells Remarkable Story of How Wife Was Helped

"It seemed that everybody I talked to had something good to say about Tanlac, so I decided that it must be good, and that it would help my wife, who had been suffering for many years," said Morzan English of 16 Hudson street, Jonson City, N. Y., as he began a most remarkable story to Druggist Charles Quick of that city. "And was more than convinced after the first bottle," this well known carpenter continued.

"My wife, who is 51 years old, suffered for many years with indigestion and stomach trouble. Her appetite was very poor, and she could get little real sleep. She was in a general run-down condition. I knew that something had to be done for her and I started to ask people what would help her. Every person I asked had something good to say about Tanlac, so I started her to taking this new medicine. She feels much better now in every way, and Tanlac has certainly helped her. After she had taken one bottle I was fully convinced that it was doing her good and I lost no time in getting some more of it. She has taken four bottles of Tanlac and Mr. Quick can tell you that every time I went after a bottle of this good medicine I told him what a pleasure it was to me to see my wife restored to health."

"She is now able to eat meat, potatoes and vegetables and not have any bad after effects. She also enjoys doing her house work now. She feels me in recommending Tanlac and we hope that Tanlac will reach all suffering people."

Tanlac is now being specially introduced in Jonson City by the Tanlac Man at the drug stores of E. E. Stanchard and George S. Slade.

Jonson City agents are: Hartwick and South Hartwick, Roy Adams, Worcester, W. H. French.

FINANCIAL AND COMMERCIAL

New York Markets.
New York, June 14. — Trading shifted frequently today from the recognized leaders to specialties and other shares of no definite description. Dealings were in diminished volume, but the trend was mainly upward until the final hour, when selling of the more prominent issues caused an extreme reversal of 1 to 3 points.

The Liberty loan was again a factor of paramount importance, prices hardening in the intermediate session on favorable advices from Washington. Rails, including low priced shares, were in further demand, Union Pacific and Reading leading the investment group at gains of one to four points. Delaware and Hudson made full recovery from its setback at the previous session.

United States Steel once more distinguished itself by attaining to the new record of 134½, later, however, falling two points and closing at 132½, a net loss of 1½ points. Bethlehem Steel kept pace with the leader, the new and old shares scoring new maximums at 155½ and 155½, respectively, but yielding in the general decline at the latter part of the session.

Railroad bonds and some industrial were fractionally lower.

Lemons Whiten and Beautify the Skin! Make Cheap Lotion

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier at about the cost one may pay for a small jar of the ordinary creams. Care should be taken to strain the lemon juice through a fine cloth no lemon pulp gets in, then this lot will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness, and tan and is the ideal skin softener, smoothen and beautifier.

Just try it! Make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen, and bring out the hidden roses and beauty of any skin. It is wonderful for rough, red hands. Your druggist will sell three ounces of orchard white at little cost, and any grocer will supply the lemons.

LAST DAY OF LIBERTY LOAN.

Today is the last day on which subscriptions for the Liberty loan bonds will be open. On the result of the public subscription in the eyes of the world, and in particular of the central powers are fixed.

When the United States decided to join the allies in the world-wide contest now waging, there was great depression of spirits in Berlin and among the people of both Germany and Austria. From this depression the Teutonic peoples have to an extent recovered, and just now they are being told that the people of the United States are opposed to war and that they will neither enlist, submit to conscription nor buy the national bonds. In liberal numbers they have enlisted. The enrollment for conscription has passed without so much as a ripple on the surface of the political deeps. Now it is up to the people to give the lie for the third time to German assertions. By liberal subscriptions they can prove that the people of the United States are enlisted heart and soul in the war. By failing to make the loan a pronounced success they can give aid and comfort to the enemy, who will believe that the nation is disheartened and will not enter actively into the struggle.

There are a few things especially to remember: That Germany would be encouraged by failure of the loan; That such failure would lengthen the period of the war perhaps by years;

That in such event Germany might win out, and we might have vast indemnities to pay;

That the Liberty loan bonds are the best securities in the world;

That they are backed not only by the government but by all the wealth of the republic;

That if the Liberty loan bonds are not good, then no security in the country is good, since every other investment in the nation is subordinate to it and becomes responsible for its payment;

That the Liberty loan is more than a financial investment—it is a moral obligation;

That not all of us can fight, but that everybody can do something;

That the one thing which more than any other which can be done by everybody is financially to support the government;

That the way to give that support is to buy a Liberty loan bond.

Every reader of The Star is a loyal citizen. There is no question about that. Only one day remains for the big drive for the loan. It is therefore up to everybody, alike as a matter of patriotism and of personal safety to subscribe for a bond if you have not already. If you have subscribed, to increase the amount of your subscription if you are able to do so.

Governor Whitman Has Signed Bill to Permit Its Use.

Governor Whitman has signed the Pearson bill permitting the sale of coloring matter with oleomargarine. During the past few years the state department of agriculture has brought a number of penalty actions against country merchants who gave away coloring matter with oleo. The bill provides that the word "oleomargarine" in large, prominent letters shall be stamped by indentation on each separate brick or portion of the substance itself before it is wrapped and sealed.

NORMAL TRAINING SCHOOL

Gives Annual Entertainment This Evening at Normal Auditorium—Program of Evening.

The annual entertainment by the children of the Primary and Intermediate departments of the Oneonta State Normal school will be held this evening at the Normal school auditorium. The entertainment is always one of the most popular of commencement week, and this year, if the program is evidence of the quality, it will equal the best of those of other years. Only a limited number of tickets will be on sale, as most of them have been distributed among the pupils or sold to them for friends whom they desired to have present. Accordingly it would be well for anyone desiring to witness this opening number in the Normal commencement series to be on hand promptly at the Normal building this evening. The program in full is as follows:

PRIMARY PROGRAM.

A Bit of Fairyland.

(An operetta in One Scene, Characters.)

Queen Flora, Madolin Todd.
Stella, Alice Orcutt.
Bumble Bee, Bruce VanBuren.
Chorus of Lilies, Butterflies, Woodland Fairies and a Trio of Daisies.
Scene—A Woodland Dell.

Story: Queen Flora calls for lilies, flowers and a bumble bee to amuse her until day is done, when all fall asleep lulled by the nightingale's song.

INTERMEDIATE PROGRAM.

Chorus, Intermediate department.
"The Marseillaise," de Lisle.
"Triumphal March," from Abta. Verdi.

Conflict of the seasons—
Fall
March Militaire, Sixth Grade Girls.
Military Tactics, Eighth Grade Boys.

Songs, Sixth and Seventh Grades.
"Gipsy Song," Rumanian Folk Song.
"Joys of Spring," Geibel.

Winter
Snowflake Dance, Eighth Grade Girls.
Snowball Combat, Seventh Grade Boys.

Spring
Skating Dance, Seventh Grade Girls.
Dance of Spring, Eighth Grade Girls.

Songs, Eighth Grades.
"The Sea Gull," Batiste.
"Sing," Holzel.

Presentation of diplomas.

BAKER AWARDED VERDICT

Jury Gives Clarence F. Baker Judgment for \$1,800 Against Conrad Yagel for Breach of Contract—Court Adjourns.

Cooperstown, June 14.—The suit of Clarence F. Baker, plaintiff, against Conrad Yagel to recover \$2,300, for breach of contract which had been on trial all the week before Judge Wiley and a jury was brought to a close this afternoon when the jury brought in a verdict of \$1,800 for the plaintiff. The forenoon was taken up in examining the plaintiff's witnesses. The new witnesses this morning were Clara Banner and Nelson P. Gardner, while Mr. Baker took the stand in his own behalf. Mr. Yagel was called in rebuttal. The afternoon was devoted to the attorneys summing up the case. City Attorney Owen C. Becker of Oneonta summed the case for the plaintiff, while Hon. William H. Johnson plead the case for Mr. Yagel. The case was given to the jury at 4:30 p. m., who after about an hour's deliberation returned the verdict as stated above.

The case of Frank McFee and Samuel Borst, doing business under the firm name of McFee & Borst, against William D. Walte, an action to recover for goods sold and services performed, was with stipulations referred. There being no other cases ready for trial the court adjourned.

Seek Injunction Against D. & H.

Many local investors are watching the quotations of Delaware and Hudson stock following the information from New York that Justice Greenbaum has granted an order on the application of a stockholder, Samuel H. Halperin, requiring the railroad to show cause next Monday in supreme court why a permanent injunction should not be issued restraining it from declaring a quarterly dividend of two and one-half per cent payable to stockholders of record of June 20. Mr. Halperin in his application informed the court that the D. & H. had borrowed \$1,000,000 with which to pay this dividend; consequently it has not been earned, and the company had no right to pay it. D. & H. stock dropped yesterday in the Wall street market one and one-quarter points following the report of Halperin's action.

The financial department of the D. & H. in commenting upon the Halperin case, reported that the company's earnings from January 1 to May 31, 1917, aggregated \$1,769,088.84, net, equivalent to 4 1/2 per cent on the capital stock. This, the officials say is one of the best seasons for the period in ten years.—[Albany Journal.]

Alumni Banquet.

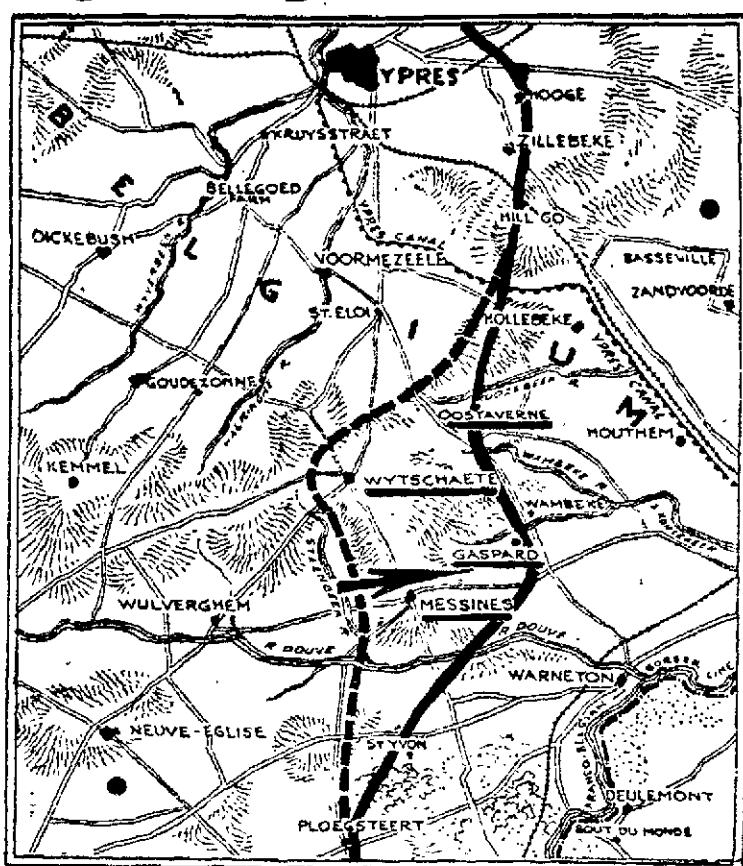

The banquet of the Alumni association of the State Normal school takes place on Thursday evening, June 21, at 8 o'clock. The tickets will be on sale at the bookstore of Henry Saunders until Thursday noon.

Those having the matter in charge urge the alumni and friends to buy their tickets early. The increasing numbers make definite preparation most necessary.

Serve 200 With Supper.

More than 200 young men and women of the Oneonta Ladies Aid society of the Oneonta Plains Methodist church, held in the home of William Richards last night. The receipts were \$20 and the results were highly pleasing to the society.

Haig Driving Through Belgium

Despite the prophecy that the British had reached the limit of their effort after taking the Wytschaete-Messines ridge last week, Field Marshal Haig made another tremendous smash at the German lines Tuesday on a front of two miles east of Messines. Trenches were stormed and the village of Gaspard was occupied.

COMMENTS OF THE PRESS

The Unending Attack in the West.

Among the debris created by the tremendous explosions with which the British have opened a new battle southeast of Ypres, one may search for the Kaiser's very recent congratulations to Hindenburg and to his people on the final collapse of the British offensive. It is now three months since Hindenburg's strategic retirement "frustrated" the allied plans for an attack to the extent that for nearly three months the allies have been hammering with little rest at two-thirds of the German line in the west. After the pause which set in some time ago, it might have been conjectured that perhaps a month would elapse before the spring offensive, which began before Arras early in March, would be resumed in a summer offensive corresponding to last year's battle of the Somme. Instead, we seem to be confronted with an allied plan calling for a sustained attack that may well keep up till late autumn. The spring battle will merge into the summer battle, a fact which the Berlin war office will somehow have to explain to the German people who were looking about this time for England on her knees suing for terms.—[New York Evening Post.]

Ships Already Available.

What provision has been made for getting ships without waiting for the builders? Eleven of the seized German vessels are in use, 12 more will be ready within three weeks, and five will be added in July. This week 12 ships owned by companies or foreign governments will be launched at our shipyards. These will soon be followed by many others, for our builders are at work on more than 700, three-fourths of them made of steel. While waiting for execution of its orders, the shipping board will have power to take these new vessels for national service. A survey of the situation warrants a prediction that the carriers which the emergency demands will be found.—[New York Times.]

Democracy's Message to the World.

That the United States and its people have not been taken in by the fine phrases used to obscure the Teutonic purpose, Mr. Wilson's unanswerable exposure of the scheme gives testimony that must be heeded within the German empire as well as outside its borders.

For our allies it comprises a denunciation of our unalterable purpose to devote our whole power to the extinction of the menace that for years has hung over civilization.

For Germany it means that the contest she brought on can end only when democracy by its might has completely vindicated its right to enjoy undisturbed the fullest measure of liberty for untrammelled development.

And for free Russia it is a friendly warning that the preservation of what she has won from autocracy depends entirely on the fate of autocracy in the present struggle.—[New York Sun.]

Eyeball Bursts at Dinner.

Mrs. Elizabeth Wood, the mother of Mrs. E. C. Beach of 49 Main street, was the victim of a peculiar accident while at dinner yesterday. Mrs. Wood resides with her daughter, and for several years had been blind. Recently she had suffered much pain in one eye and had consulted it for relief. Yesterday the pain had apparently diminished, but as she was dining, the eyeball suddenly burst, the entire contents being discharged. Dr. Brownell was called and in the afternoon removed the eye.

Only Two Enlisted Yesterday in Army

Recruiting at the local recruiting station was slim yesterday, only two men enlisting in the army. They decided to join the infantry. They are from Cooperstown and Oneonta.

Two men left Oneonta yesterday morning for Fort Shafter.

Infantry—George C. Reynolds of Meshoppen and Myron Getman of Cherry Valley.

DR. RUSSELL TO SPEAK.

Oneonta Elks Chorus to Sing at Cooperstown for Red Cross.

Referring to the opening of Red Cross week in Cooperstown on Sunday next the Journal says:

On next Sunday afternoon at 3:00 o'clock the activities of the week will open with a Community Sing in the Village hall. Patriotic songs, in which the audience will take part, will be led by the Elks Chorus of Oneonta under the direction of Jack Gessner. The Oneonta Elks are a fine lot of men, who responded most generously to the invitation to lend their voices to this occasion. There will be an address by Rev. Dr. J. C. Russell of Oneonta, one of the most gifted preachers in this vicinity, and by R. W. Moore of Hamilton, who comes as a representative of the American Red Cross organization. It is expected also that a Red Cross nurse who has seen service in France will be here to relate some of her experiences. This will be a rousing patriotic meeting, fully in keeping with previous meetings of this kind that have been held in Cooperstown recently. A silver collection will be taken.

LOCAL MENTION.

—Everett H. Turner, a popular employee of the Citizens' National bank, has resigned his position to accept a more lucrative one with the Delaware and Hudson company.

—Reserved seat sale for the opera of "Iolanthe" to be given next Tuesday at the Normal auditorium, will be on sale after 8 a. m. on Saturday at the bookstore of Henry Saunders.

—Troop two of the Boy Scouts, who have persistently and courteously aided in the sale of the Liberty bonds during the past few days, report the sale of 50 bonds to a total value of \$7,000.

—While there is no doubt a scarcity of labor, one wonders why, when the small matter of a car becoming detailed on the temporary track about the Chestnut street corner will attract a throng of a hundred or more men to watch the operation of replacing it, with apparently no other task than to close in on those who are busy and perplex them with questions.

—The Salvation Army tag day was not as successful yesterday as headquarters had hoped, partly on account of the weather, partly because the day, or at least the pleasant part of it, was given up to other matters. The total receipts are estimated at \$50, though all the money received is not yet counted. The receipts go to headquarters to establish a Salvation Army Ambulance corps.

—At chapel, recently, at the high school, Dr. Dunn called the attention of the students to the need of each doing his part and of the necessity that the students make the summer profitable for themselves and for their country. He advised the young men and women to secure some employment and after signing for one of the Liberty bonds to see that it is paid for before school reopens.

BOOM LIBERTY BONDS.

From Booth at Corner of Main and Ford Avenue—Do Good Work.

Following the exercises at the park, the tent which the Elks had erected on the Wilber lawn at the corner of Main street and Ford avenue was thrown open and with band and other music, including the singing of patriotic songs, the throng was entertained while the duty and wisdom of buying Liberty bonds was called to the attention of the men in the throng by solicitors for purchasers. The people who halted were well entertained and some good work was done for the final round up for the sale of bonds.

Flag Day Night at Elks Club.

Following the exercises of Flag day in Oneonta, in which the Elks as always took a lively interest, there was a meeting last evening at the Elks' club house on Main street, which was tastefully decorated with flowers for the occasion. In accordance with the constitution of the order it is required to observe Flag day every year. The ritual was accordingly read, after which there was a fine musical and literary program, consisting of solos by Byron Chesbro and George A. Daley, accompanied on the piano by Miss Winifred Charles; and a recitation by Mr. Daley. Refreshments were then served, and a general musical program followed, a quartet and various members participating. Besides the members, their wives and many friends were present and heartily enjoyed the events of the evening.

Meetings Today

The Junior and Primary departments of the Methodist Sunday school will meet for rehearsal at the church this afternoon at 4 o'clock.

The monthly meeting of the Ladies' auxiliary of the Y. M. C. A. will be held this afternoon at 2:30 o'clock.

Those who take part in the Children's day musicale at the West End Baptist church are requested to meet in the chapel this evening at 8 o'clock.

All ladies of the W. B. A. O. T. M. intending to go to Hartwick today, please leave either on 12:15 or 4:15 car. A special car leaves Hartwick at 11 o'clock for Oneonta. All ladies bring last receipt.

Liberty Bond Subscriptions Now Due.

Both banks are requesting all subscribers to Liberty Bonds who have not done so to call today or Saturday and make their first payment or payment in full for their bonds. It is necessary to do this in order to secure their bonds as the subscription books close today and the banks are expected to pay for theirs June 15. advt 2t

PATRIOTIC FIRE BLAZES IN CITY

Thousands March in Memorable Flag Day Parade

A WONDERFUL EVENT

Conservative Estimate Makes Marchers and Spectators Number Fully Seven Thousand.

Whatever of unfavorable weather promised with its clouds and frequent showers, in the afternoon nature in more relaxing mood relaxed; and before the hour of one the skies had cleared and the sun was shining down upon a spring scene of unrivaled beauty. Everywhere homes and business places were decorated with flags, and when a little after two o'clock the parade moved, the streets were crowded with spectators in such numbers as led one on-looker to remark that "whoever is not on the sidewalks, is in the parade." The air was balmy and the lawns and the far hills rivalled one another in verdure, and altogether man and nature in friendly rivalry tried to make the day one of rare delight. Flags were everywhere in evidence. They swung from every dwelling, swayed from the tall staffs on public and other buildings and business places, decorated all the streets and were carried and worn by everybody. Moreover, the light of loyalty was in all faces and the fire of patriotic devotion burned in every heart.

There had been anxious hours before noon, when the rain was falling in uncompromising fashion and the skies were unusually overcast. Then it was that men talked anxiously about whether or not it would be best to postpone the event for one day or to the next fair day, or to call it off altogether. Fortunately there was no need for decision. Shortly after noon the rain was over. Before 1 o'clock the sun was coming out now and then from the clouds. In a half an hour later it was shining brilliantly and before 2 o'clock, which was the time set for the parade, streets and quite generally the fields were dry. There was no longer any question about it, and spectators and paraders alike gathered upon the streets.

The parade, which moved at about ten minutes past two, was without doubt the longest and most impressive civic procession which ever passed over the streets of the city. The parade of a year ago had the same flattering distinction. This year, however, there were more in line, and had the entire day been favorable there is no doubt that there would have been hundreds more. A conservative estimate places the number in the ranks at 2,000. On the streets, of citizens and visitors, there were probably five thousand more. Many of these accompanied the parade to Wilber park, where it is believed that at least 5,000 persons assembled. An event of such magnitude on such a day has no parallel in local history.

First in line of the big parade were Chief Bizard and the Oneonta police, with the Home Defense officers and Captain J. A. Millard as marshal and Major George W. Augustin as chief of staff. The first division was led by Rev. Chaplain Charles McCaffrey as marshal and the excellent band of company G, which with the company itself nearly 100 strong and under command of Captain Keepers, was heartily applauded all along the line.

"IOLANTHE"

Charming Opera To Be Given at Normal Auditorium Tuesday Evening.

"Iolanthe" is one of the best known operas from the long list of Gilbert and Sullivan. It was first produced in eighteen-eighty-two and created not a little criticism. Its theme—a satire on the English peerage—is worked out with all the clever charm of Gilbert's ready wit; while Sir Arthur Sullivan's musical score is most happy. The students of the State Normal school have staged this interesting satire as their commencement entertainment for nineteen-seventeen and will present it on Tuesday evening, June 19. No pains have been spared in the preparation. The entire costuming is in the hands of Tinas of New York. The houses and sets work have had the efficient care of Miss Elizabeth Gleason.

The reserved seat sale begins on Saturday at 5 o'clock at the store of Henry Saunders. All seats are reserved and are at the one price of 25 cents.

THE STRAND TODAY.

Baby Marie Osborne and Mrs. Castle Make a Very Tempting Bargain.

"Sunshine and Gold" opens with Baby Marie in a performance of Cinderella. She is kidnapped by gypsies, escapes and makes her way to the hut of an old crab. She overcomes his crabbedness by her cute ways. There is a great deal of beautiful outdoor and night photography and the picture is one of the most pleasing in which Baby Marie has been seen. Mrs. Vernon Castle in "Patricia" will also be shown. She is as fascinating as usual. She shows her preparedness to stars again in this episode. The two stars will make a very pleasing program.

FIVE HUNDRED AIRE ENROLLED

More Satisfactory Results Reported as Census Gets Under Way.

The central office of the census bureau in Oneonta is beginning to get results, now that the enumerators are coming to understand the work better, and so are becoming better able to handle the various questions which arise. Yesterday there were nearly 400 completed papers handed in, which with the 150 papers of the day before swell the total to considerably more than five hundred. The quality of the papers is also better. There is less necessity of sending back for correction, and altogether there is indication of much more rapid and efficient work.

There is still need, however, for more enumerators. While those at present employed are rushing the work as much as possible, the time is short, and if all papers are to be got in before the end of the period, more assistants must volunteer. It is therefore urged that all persons above the age of 21 years who have time to assist in the enumeration, notify the central office in the Municipal building. Work will at once be assigned, either in a clerical capacity at headquarters or as enumerators.

The county of Otsego has agreed, like all the other counties of the state to do this work without expense as a patriotic duty. Oneonta does not want to be the one city to fall down.

County Clerk Robert O. Marshall desires it to be plainly understood that those who have been served with notices for military duty, between the ages of 18 and 45 inclusive, who wish to claim exemption must make an affidavit before a notary public and file it with the county clerk at Cooperstown within fifteen days after the notice of enrollment was served upon them. For the convenience of such persons who are residents of the city of Oneonta, they may leave their affidavits at the mayor's office and mark them. "For the County Clerk, Cooperstown."

CLIMAX REACHED TODAY.

No Abatement of Interest in Sale of Liberty Loan Bonds.

There appears no abatement of interest in the sale of liberty loan bonds and not since the sale opened has there been such a number of purchasers in evidence at the bank as during the day yesterday, while the interest displayed at the various picture houses was large, with stirring speeches in support of the loan followed by personal work, both within the theatres and in the lobby while the theatre goers were leaving.

The Boy Scouts are continuing their activity and from indications there promises to be a large demand for the interest bearing bonds today. The general public, which as first appeared apathetic, now is fully aroused apparently with the demand increasing daily.

No figures were available last night, but the banks are confident that the figures when finally compiled will be gratifyingly large and even more than had been expected.

Leaves for Plattsburg.

Dr. Arthur W. Cutler expects to leave the city today to report at the Plattsburg training camp to commence his duties to which he was recently assigned. His departure is much regretted and all his friends are hoping that he will not long be detained for work that others less skillful are perfectly capable of doing.

DAINTY ANITA STEWART.

Famous Film Star in "The Glory of Yolanda" at Theatre Today.

America's daintiest actress, Anita Stewart, proves her right to that title in "The Glory of Yolanda," the Vitagraph feature which is the attraction at the Oneonta theatre today, matinee and evening. In this story Miss Stewart plays the part of a little Russian girl in whom burns an intense desire to dance. At first she dances the quaint peasant steps with the bushes and the forest for her settings, she then goes to the great city and enters a school where she is taught ballet dancing. A wonderful story is woven and one which is bound to attract and hold your attention throughout. A big laugh is also one of the features for tonight when one of the famous two-reel comedies entitled "The Cloud Puncher" will be shown. Admission to all, 10 cents.

BREAKS JAIL; THEN RETURNS

Man Confined in Jail Room in Municipal Building. Tips Bars Away, Climbs Through Transom, and Goes Home To Get a Change of Clothing—Suddenly Appears at Police Headquarters While Search Is Hot.

While the flag day exercises were taking place at Wilber park yesterday afternoon and there were few people on the streets, David VanHoosen, 25 years of age, broke from the jail room in the Municipal building where he was confined on a charge of first degree burglary. His escape was not discovered until nearly 6 o'clock. The police immediately got into communication with taxi drivers, the railroad police and others in an endeavor to cut off escape. Nearly two hours were also notified.

While the searching was at its height, VanHoosen suddenly appeared at police headquarters to give himself up. According to his story, he tore away the bars of the jail room and climbed through the transom jumping to the floor of the main hall and thence to his escape only so that he might go to his home at 44 Grand Street to get a change of clothing. According to the police after he reached his home, he was persuaded to return to jail.

The prisoner is charged with Harry Johnson, aged 31 of South Side, with holding up Samuel Smith on Five Street on the morning of May 20 and taking him of his purse.

Harry Johnson was arrested in Binghamton Wednesday afternoon by Officer Horton of the Oneonta police force. He is now locked in the city jail here.

Both prisoners will be arraigned before City Judge Henry Shaw this morning.

The alleged crime.

According to the police the crime was committed shortly after midnight "Memorial day morning." Smith was more or less intoxicated and while one man held him the other lifted his pockets of \$11. The same morning Peter Magonis was relieved in a similar manner of \$25 and while perhaps there is no evidence that the fellows named secured Magonis' money, he is quite desirous that the should be well punished for the Smith crime if proven guilty.

Officer Horton to whom the case was assigned at first had no clue but when VanHoosen and Johnson both displayed considerable money and spent more freely in the resorts suspicion was directed to them. Officer Horton secured Johnson in Binghamton and apprehended VanHoosen here yesterday. Much credit is due Officer Horton for clearing up the case.

The fact that VanHoosen was placed in the Municipal building rather than in a cell was due to a desire to keep him apart from Johnson in order that they might not compare notes before arraignment.

DEATHS

Wallace Bates

The death of Wallace Bates, brief mention of which appeared in yesterday's issue of The Star, occurred at the family home, 406 Chestnut Street, Thursday at 1:30 a. m. death being due to intercurrent pneumonia which he had been afflicted and gradually failing for the last year.

The deceased was a son of James and Lillian Bates. He was born in the township of Decatur, May 27, 1854. He was united in marriage to Miss Ada E. H. Schenck in 1877. Following their marriage they resided for a time in Schencksville, moving from there to Oneonta a year ago where they had since resided. Shortly after taking up his residence here he entered the employ of the Delaware and Hudson Railroad company as a car painter and was engaged at that occupation until his health failed him. Horses Available For War.

There are now in the United States only about 1,250,000 horses fit and available for artillery and cavalry service, according to an estimate by E. Ray Hoskins, dean of the New York State Veterinary college. He estimates the total supply of horses in this country at 25,000,000. More than 20,000,000 of these, he says, are in active service, and 50 per cent of the remainder are too heavy for military service, while 5 per cent are too old or physically unsound.

Earthquakes.

Earthquakes are subterranean disturbances propagated through the earth in a series of elastic waves. How they originate is not clearly known. Many are associated with volcanic action, while just as many occur without any evidence of such association.

PATRIOTIC FIRE BLAZES IN CITY

(Concluded from Page Five.)

of march. In this division were also the Grand army, the Spanish War Veterans, the Red Cross organizations making a fine showing in their new uniforms and insignia, the Boy and Girl Scouts, who showed in their fine work in the march what good material Ontario has in its younger generation. This practically completed the military division of the parade. With it also marched the Daughters of the American Revolution, the city officials, with the Laurens band and visitors and the County Home defense.

The second division, of which Judge Everett B. Holmes was marshal, embraced Canton David Wilber and the visiting knights from Delhi and Sidney, Centennial lodge and many visiting Odd Fellows, the Royal Rebekahs, the Otsego and Delaware telephone float and the Woman's club of Ontario. In this as in other divisions, the order of parade was not exactly followed, members of the G. A. R. and allied orders, and many other organizations being in the long line of about sixty automobiles at the end of the parade. A feature of the second division which everybody noted and commended was the telephone float, which in front carried an immense bell, and on elevated seats a charming bevy of telephone belles.

The third division had Fred N. VanVle as marshal and embraced the local Masonic, Macabees, Elks and Moose lodges. All were largely represented, and the large flags carried by them were important features in the parade. The Masonic lodge and the Elks were in particular largely represented. The fourth division was led by Captain U. A. Ferguson, who yesterday received notice from Governor Whitman that he had been assigned to the officers' reserve corps. Following McDonald's Colored band were the Knights of Columbus and the Daughters of Isabella. A feature of the division was the Christopher Columbus club, with Don Farone commanding, sons or descendants of sons of Sunny Italy and every one of them a patriot to the core. The employees of the Kayser Glove company, and of the Riverside Manufacturing company, with the Ontario granite completed one of the most interesting divisions of the parade.

Division five, with William Lunn as marshal, embraced the Protected Home circle, a large number of the railway employees and shopmen of the D. & H., each carrying a flag, and many patriotic citizens who while members of no orders, still felt it an honor to march on Flag day.

Perhaps the greatest attention was drawn to the sixth division, which marched to the stirring strains of the City band, and was composed of the pupils of the Normal and High schools, the Veteran firemen and the City Fire department. Marching eight to twelve abreast, the hundreds of pupils of the two schools, some carrying scarfs and others flags and all alive with the spirit of the day, and led by their principals and superintendents, were an inspiring spectacle. Following the last named division were many automobiles carrying members of the various organizations above referred to.

A feature not to be overlooked is the Continental trio, consisting of two drums and a life, and composed of C. F. Farmer, Clifford Uter and Adelbert Powers.

The parade, which moved without a hitch, was reviewed by Captain Milford, Chaplain McCaffrey and Major Augustin at the corner of Main and Maple streets. The pedestrians mostly marched to the grounds over Walling avenue, but the autos entered the park by way of Draper street.

On the plateau the exercises consisted of a parade by Company G under command of Captain Keepers, impressive military exercises in connection with the raising of the magnificent flag which was presented to the city by Judge A. L. Kellogg, and playing the Star Spangled Banner, all standing with heads uncovered. The staff, 75 feet high, was presented and erected by the telephone company. The further exercises were held on the lower grounds of the park, in the natural amphitheatre, whose beauty few present doubtless fully understood before yesterday. A level tract of land, surrounded on two sides by a curving hill makes an ideal place for open-air entertainment and no doubt

The above photograph shows King Alexander of Greece. He is considered pro-British and received his education in England.

It will hereafter be largely utilized for that purpose.

The exercises in the amphitheatre began with the singing of "The Star Spangled Banner," a thrilling bit of community singing led by J. J. Gessner, and in which everybody joined. Dr. James C. Russell followed with a ten minute address on the Liberty Loan, and by his eloquent words thrilled the hearts of all present, and enforced the idea of our responsibility in this war and the necessity of our co-operation in every way in the great conflict. Thirty-two boys from the High school gave a flag drill which held the closest attention of all spectators. Though they had had only a short period of preparation, they did credit alike to themselves and to their instructor, Miss Jenks. In the marches, evolutions and intricate figures which were presented with never a blunder or false step. Following the boys, the girls presented a scarf drill, in which the red, white and blue were harmoniously blended in graceful and artistic evolutions. In every respect their work came up to the high level of their predecessors.

"Dixie" was sung with a genuine fervor which would have been considered meritorious even south of Mason and Dixon's line, and then the Normal pupils, as their part of the program, presented the delightful myth of "Gladia," which only a few days before had been given as a fete on the Normal grounds. Coming at the end of a long performance, there could be no higher praise than to say that their graceful evolutions to the last moment had the close attention of the thousands present. Too high praise could not be accorded to them or to their instructor, Miss Hart, for their fine interpretive work.

To all who had part in the difficult work of preparation for Flag day, and to all who took part in the exercises, thanks are due. In a year which more than any other calls for the exercise of patriotic self-denial and for loyal devotion to the country which the flag symbolizes, it is a good thing to pay tribute through that symbol to the land itself; and there is no doubt that all who were present as participants or spectators went home last evening better Americans for the exercises of the day.

To Test Military Road.

The automobile caravan which will be sent out in May by the San Francisco Advertising club has assumed military importance as a test of road conditions in that stretch of country between San Francisco and Denver, through which there run but three trunk line railroads. In the event of the disabling of these railroads through the mountains the highways would become of the utmost importance, and the necessity of having ready information regarding the conditions not only of the Lincoln highway, but of an alternate route, has been seen by the military authorities.

A one and one-half ton motor truck will accompany the delegation eastward and will be required to keep up with the tourists at all times. Over the entire 2,500 miles this rear guard, equipped as a motor prairie schooner, will be obliged to average well over 200 miles daily at a speed of more than twenty-five miles an hour. In accomplishing this it will prove the military importance of the roads for transporting supplies and ammunition.

Animals and Rhythm.

Animals have no sense of rhythm, though they may be taught to "dance." This is the announcement of Dr. Craig of the University of Maine. "Horses driven in Spain," he says in the Guide to Nature, "make no attempt to step together. Two birds, however, sweetly sing solo, never sing in time with one another nor with any other music. Even the so-called dancing animals of the circus get their rhythm from the trainer, not from the tune."

Handy When There's a Fire.

A siphon of soda is an excellent fire extinguisher as the carbonic acid gas in the soda water helps to stifle the flames. The siphon can be tilted, and the fluid will carry to a considerable height, such as the top of a blazing curtain.

TO BUILD AUTOMOBILE HIGHWAYS IN CHINA

Will Connect Shanghai With Woonung, a Deep Water Port.

Arrangements have been made for the construction of a road from Shanghai to Woonung, the deep water port at the point where the Hwangpu discharges into the Yangtze.

As all vessels beyond a certain draft with cargo for Shanghai have to discharge at Woonung, convenient connections between the two are important. A railroad has been in operation for twenty years, but a road passable for motor vehicles has been lacking.

The distance is between ten and fourteen miles, according to the route selected. By the arrangement now made the Hwangpu conservancy board, which is in charge of the maintenance of navigation on the river and receives the proceeds of a customs and surtax levied for that purpose, is to loan from its funds to the public works office of Shanghai the sum of \$10,000 Mexican (\$23,632 United States currency), repayable in forty annual installments without interest. The remainder of the total cost of the work, estimated at \$80,000 Mexican, is to be borne by the conservancy board itself.

It is understood that immediate action on the project has been delayed by an investigation to assure officials that the proposed work will not impair the embankment of the Hwangpu.

The construction of the road will provide an important addition to the very small number of highways in China outside the cities which are available for motor vehicles. The number, however, is slowly increasing.

A concession by an American company for a road in the environs of Peking was obtained recently, and plans are announced also for the construction of a road from Dairen, in the territory on the Kwangtung peninsula leased by Japan, to the summer resort at Hoshigaura or Star Beach. An appropriation of 100,000 yen (\$53,300) has been made for the purpose by the local administration. The road will be forty-eight feet wide and be reserved for rubber tired vehicles.

RENGO BELT

Reducing Corsets

are made exclusively for medium and full figures

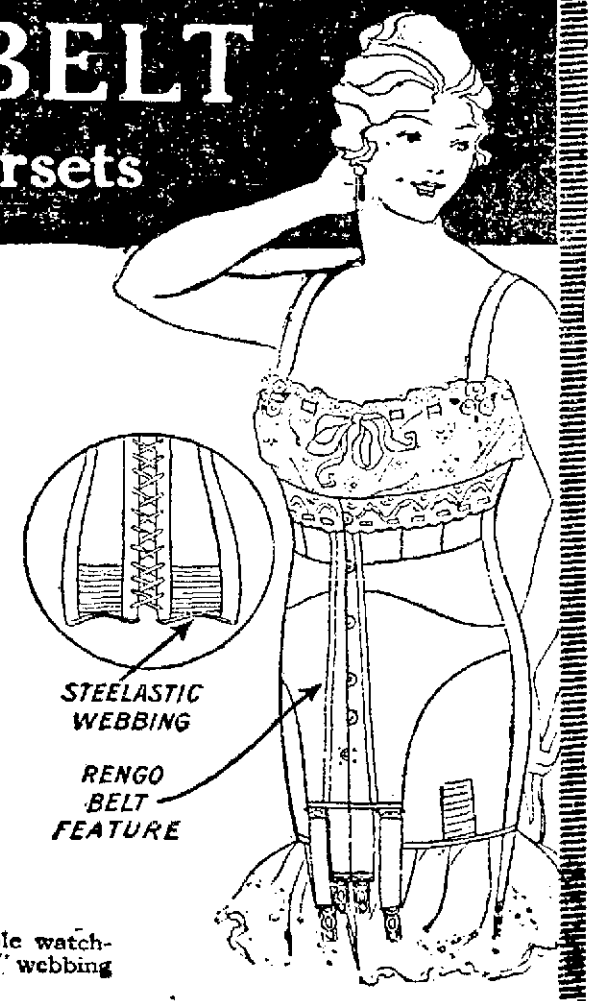

Rengo Belt Corsets are not intended for slender women—they are strong, sturdy corsets for medium and stout women, reinforced by a specially designed and exclusive Rengo Belt feature for straightening the abdominal line.

In every other respect these famous corsets are ideal for reducing because of their perfect lines and absolute strength. Rengo Belt Corsets cannot be stretched out of shape or broken, no matter what amount of wearing stress is put upon them by heavy figures. They will mould to their own beautiful lines because they are stronger than any figure, yet pliable and comfortable because they have no "fixings" or "trappings" of any kind—nothing to indicate that they are specially constructed Reducing corsets, unless you understand the scientific tailoring of the design itself.

All models are boned throughout with double watch-spring steels, and some are fitted with "steelastic" webbing inserts, for more active freedom.
